Engineering Excellence • Disciplined Execution • Trusted Partnerships

COMPANY OVERVIEW

Who We Are

Al Majd Al Taleed is an engineering-driven construction company specializing in integrated project execution across multiple construction disciplines.

We deliver comprehensive engineering and construction solutions through disciplined execution, technical coordination, and structured project management.

Our commitment extends beyond completing projects. We strive to build lasting partnerships by consistently delivering quality, reliability, and operational excellence.

DELIVERED PROJECT · ARCHITECTURAL FINISHES

EXECUTIVE OVERVIEW

Executive Summary

Al Majd Al Taleed delivers integrated engineering and construction solutions designed to support projects from planning through successful completion.

Our multidisciplinary expertise enables us to execute civil construction, MEP systems, infrastructure, industrial facilities, architectural finishes, and specialized engineering works through structured methodologies and disciplined project management.

By combining engineering expertise with operational excellence, we create practical solutions that enhance project performance, improve coordination, and support long-term client success.

EXECUTIVE HIGHLIGHTS

01 Engineering-Led Execution

02 Integrated Construction Services

03 Structured Project Delivery

04 Multidisciplinary Coordination

05 Quality-Driven Operations

06 Safety-Oriented Culture

07 Reliable Partnerships

08 Nationwide Project Capability

VISION · MISSION · VALUES

Driven by Vision. Defined by Values.

Building lasting value through engineering excellence, disciplined execution, and trusted partnerships.

OUR VISION

At Al Majd Al Taleed, our vision extends beyond delivering successful construction projects.

We strive to become one of Saudi Arabia's most trusted engineering and construction partners by consistently delivering integrated solutions, operational excellence, and sustainable value across every project we undertake.

OUR MISSION

Our mission is supported by disciplined execution, technical expertise, collaborative partnerships, and an unwavering commitment to quality, safety, and client satisfaction.

CORE VALUES

01

Excellence

We pursue excellence throughout every phase of project delivery.

02

Integrity

We uphold transparency, accountability, and ethical conduct in every commitment.

03

Reliability

We consistently deliver dependable solutions our clients can trust.

04

Safety

We prioritize the wellbeing of people, projects, and the surrounding environment.

05

Collaboration

We believe successful projects are built through teamwork and strong partnerships.

06

Continuous Improvement

We continuously improve our knowledge, processes, and operational performance.

WHY CHOOSE US

Why Al Majd Al Taleed

Engineering thinking. Disciplined execution.
Reliable results.

Choosing the right execution partner directly influences project success.

At Al Majd Al Taleed, we combine engineering expertise, structured project management, and practical construction experience to deliver projects efficiently, responsibly, and with consistent quality.

Our focus extends beyond completing construction activities. We build long-term partnerships through transparency, accountability, and dependable project delivery.

KEY DIFFERENTIATORS

01

Engineering-Driven Execution

02

Integrated Construction Solutions

03

Structured Project Delivery

04

Commitment to Quality

05

Reliable Execution

06

Long-Term Partnerships

CAPABILITIES

Integrated Construction & Engineering Capabilities

One execution partner. Multiple engineering disciplines.

Al Majd Al Taleed provides integrated engineering and construction capabilities designed to support projects from execution through successful delivery.

Our multidisciplinary approach enables efficient coordination, improved quality, and greater operational control across diverse construction environments.

SECTORS

Supporting Diverse Project Sectors

Delivering value across Saudi Arabia's most important industries.

Our experience spans a broad range of sectors, enabling us to adapt our engineering expertise, execution methodologies, and project management practices to meet the specific requirements of each development.

This diversity strengthens our ability to deliver reliable outcomes regardless of project type or complexity.

INDUSTRY SECTORS

01

Hospitality & Tourism

02

Residential Communities

03

Government Projects

04

Healthcare Facilities

05

Educational Institutions

06

Commercial Developments

07

Industrial Facilities

08

Infrastructure Projects

SERVICES

Comprehensive Construction & Engineering Services

Integrated services. Coordinated execution. Reliable delivery.

Al Majd Al Taleed delivers a comprehensive portfolio of engineering and construction services designed to support projects across multiple sectors and execution requirements.

Our integrated approach enables clients to work with a single execution partner capable of coordinating multiple disciplines while maintaining quality, efficiency, and operational control throughout the project lifecycle.

SERVICE PORTFOLIO

01 General Contracting

Complete construction execution and project delivery.

02 Civil & Structural Works

Concrete structures, masonry, blockwork, plastering, screeding, and structural activities.

03 Mechanical, Electrical & Plumbing (MEP)

Integrated MEP systems including electrical, mechanical, plumbing, water supply, drainage, and utility infrastructure.

04 Fire Protection Systems

Fire Fighting, Fire Alarm, and life safety systems designed and executed in accordance with applicable standards.

05 Architectural Finishes

Painting, tiling, gypsum systems, decorative finishes, and complete interior fit-out solutions.

06 Infrastructure Works

Roads, drainage systems, utility networks, site development, and external works.

07 Steel Structure Works

Fabrication, installation, and erection of structural steel systems.

08 Earthworks & Material Supply

Excavation, grading, transportation, heavy equipment support, and material supply.

09 Landscape & Hardscape

Urban landscape construction, paving, curbstone installation, and public realm development.

10 Industrial Construction

Industrial facilities, warehouses, utilities, and specialized engineering projects.

METHODOLOGY

From Planning to Successful Delivery

Every successful project begins with a disciplined process.

Successful project delivery requires more than construction expertise. It demands structured planning, engineering coordination, disciplined execution, and continuous performance monitoring.

At Al Majd Al Taleed, every project follows a clearly defined delivery methodology that ensures consistency, quality, transparency, and reliable outcomes from project initiation through final handover.

PROJECT DELIVERY STAGES

STAGE 01

Planning & Mobilization

Review project requirements, define execution strategies, allocate resources, and establish site readiness.

STAGE 02

Engineering Coordination

Coordinate multidisciplinary activities, review technical requirements, optimize constructability, and manage project interfaces.

STAGE 03

Execution & Control

Execute construction activities under controlled procedures while monitoring schedule, productivity, and operational performance.

STAGE 04

Quality Assurance

Perform inspections, testing, verification, documentation, and corrective actions to ensure compliance.

STAGE 05

Project Handover

Deliver completed works in accordance with contractual requirements, technical specifications, and client expectations.

ENGINEERING

Engineering-Led Project Delivery

Engineering is the foundation of every successful project.

Engineering is not treated as a supporting function at Al Majd Al Taleed. It serves as the foundation for planning, coordination, decision-making, and execution throughout the entire project lifecycle.

By integrating engineering expertise with disciplined project management, we achieve greater control over quality, schedule, coordination, and overall project performance.

ENGINEERING PRINCIPLES

- | | | |
|----|---------------------------------------|--|
| 01 | Technical Understanding | Every project begins with a comprehensive understanding of project requirements and engineering objectives. |
| 02 | Multidisciplinary Coordination | Civil, architectural, mechanical, electrical, infrastructure, and finishing activities are coordinated through a unified execution approach. |
| 03 | Risk Management | Potential project risks are identified, evaluated, and proactively managed before they affect project performance. |
| 04 | Schedule Discipline | Progress is continuously monitored to maintain alignment with project milestones and contractual commitments. |
| 05 | Performance Monitoring | Structured reporting and project controls support informed decision-making and continuous improvement. |

CLIENT BENEFITS

- **Better Coordination**
- **Improved Quality**
- **Reduced Rework**
- **Greater Transparency**
- **Predictable Delivery**

LEADERSHIP

Built on Extensive Leadership Experience

Experienceshapesbetterdecisionsandstronger project outcomes.

The leadership team behind Al Majd Al Taleed brings extensive experience developed through participation in a diverse portfolio of major construction, infrastructure, hospitality, education, healthcare, residential, industrial, and government projects across Saudi Arabia.

This accumulated experience forms the foundation of the company's execution philosophy, enabling informed decision-making, practical problem solving, and disciplined project delivery across a wide range of construction environments.

EXPERIENCE HIGHLIGHTS

01

Hospitality & Tourism Developments

02

Residential Communities

03

Educational Facilities

04

Healthcare Facilities

05

Government Projects

06

Infrastructure Developments

07

Industrial Facilities

08

Mega Projects

Leadership experience includes participation in major projects delivered across Saudi Arabia, including experience gained through the affiliated company, The Art, where appropriately represented.

QUALITY

Quality Built Into Every Stage

Quality is engineered into every decision, every process, and every project.

At Al Majd Al Taleed, quality is not considered the final step of project delivery. It is an integral part of our operating methodology, embedded throughout planning, engineering coordination, execution, inspection, and final handover.

Our teams follow structured quality practices designed to promote consistency, minimize rework, improve efficiency, and ensure that every project meets client requirements and applicable technical standards.

QUALITY PRINCIPLES

- | | | |
|----|---------------------------------------|--|
| 01 | Compliance with Specifications | Deliver work in accordance with approved drawings, project requirements, and applicable standards. |
| 02 | Continuous Inspection | Perform regular inspections throughout execution to maintain quality consistency. |
| 03 | Corrective Action | Identify and resolve issues proactively before they affect project performance. |
| 04 | Process Consistency | Apply standardized execution procedures across all project activities. |
| 05 | Accountability | Promote shared responsibility for quality at every level of project execution. |

CLIENT VALUE

- **Reduced Rework**
- **Improved Efficiency**
- **Consistent Quality**
- **Long-Term Performance**
- **Reliable Delivery**

HEALTH, SAFETY & ENVIRONMENT

Safety as a Core Responsibility

Safe projects are successful projects.

Safety is fundamental to the way we plan, coordinate, and execute every project. Al Majd Al Taleed is committed to maintaining safe, responsible, and well-managed working environments through proactive planning, risk awareness, and disciplined operational practices.

We believe that protecting people, project assets, and surrounding environments contributes directly to successful project delivery and long-term client confidence.

HSE PRINCIPLES

01	Prevention Before Reaction	Identify and mitigate risks before incidents occur.
02	Safe Work Practices	Promote responsible behavior and disciplined site operations.
03	Risk Awareness	Continuously evaluate project risks throughout execution.
04	Continuous Improvement	Strengthen safety performance through learning and operational reviews.
05	Shared Responsibility	Encourage every team member to contribute to a positive safety culture.

CLIENT VALUE

- **Safer Work Environments**
- **Improved Productivity**
- **Reduced Operational Risk**
- **Greater Project Continuity**
- **Reliable Site Performance**

EXPERIENCE

Experience Across Diverse Project Sectors

Broad experience creates stronger execution.

The experience supporting Al Majd Al Taleed spans a diverse portfolio of projects across hospitality, infrastructure, residential communities, healthcare, education, government, industrial facilities, and major developments throughout Saudi Arabia.

This accumulated experience enables our teams to adapt efficiently to different project environments while maintaining disciplined execution, technical coordination, and consistent project delivery.

FEATURED PROJECTS

Selected Project Highlights

Experienced demonstrated through successful project delivery.

The following projects represent selected examples of the diverse environments and construction sectors in which our leadership team has contributed.

Each project reflects practical engineering expertise, disciplined execution, and a commitment to delivering high-quality outcomes.

LANDSCAPE & URBAN DEVELOPMENT

Green Riyadh

Urban landscape construction, hardscape paving, and public-realm works.

INFRASTRUCTURE & UTILITIES

Green Riyadh Water Infrastructure

Water-network trenching, utility pipework, and external infrastructure.

FEATURED PROJECTS

EDUCATIONAL

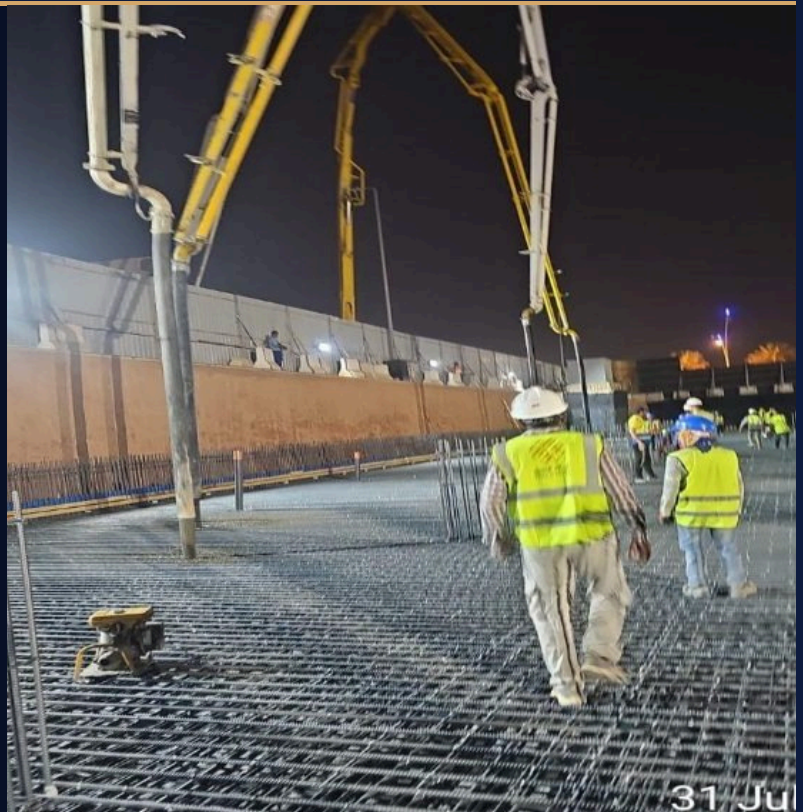

Al-Jouf University

Reinforced concrete structure,
foundations, and structural works.

HEALTHCARE

Dr. Sulaiman Al Habib Medical Project

Raft foundation and large-scale
structural concrete execution.

FEATURED PROJECTS

COMMERCIAL

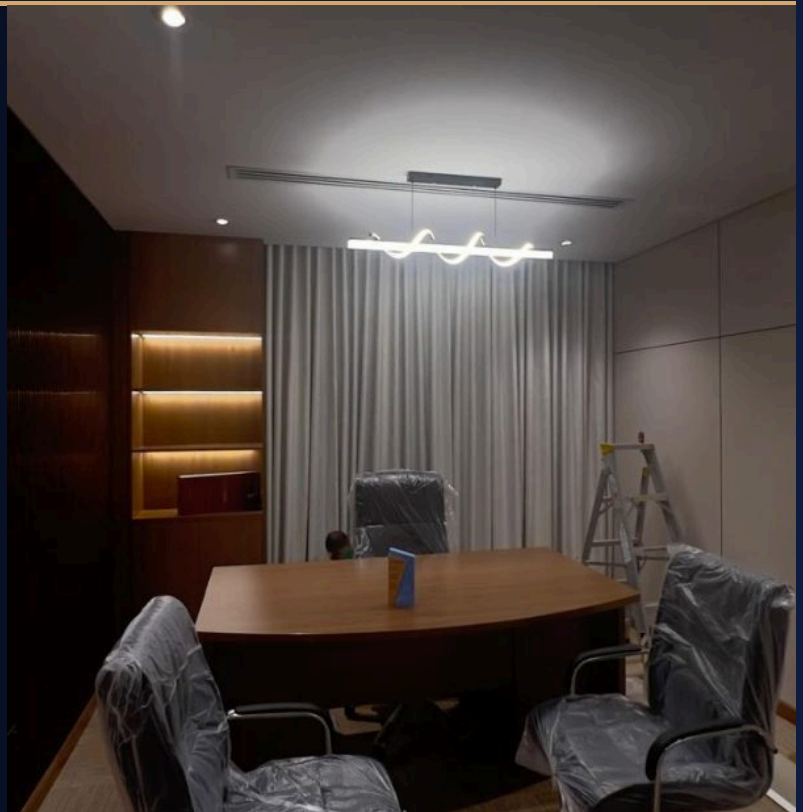

Rajhi Building KSP

Substructure, reinforced concrete frame, and structural execution.

AVIATION & COMMERCIAL

Al Arabia Airline Project

Facility construction, MEP works, and interior office fit-out.

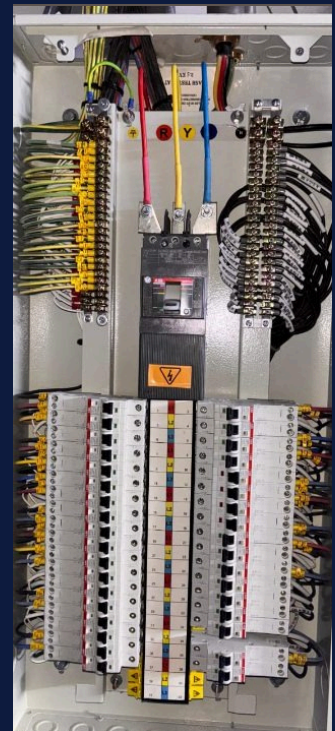

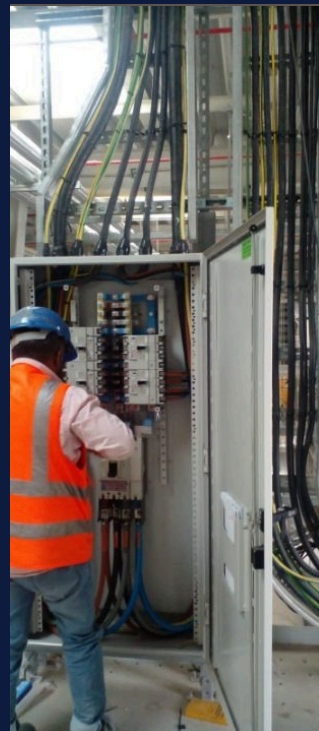

FEATURED PROJECT

Kingdom School — Mechanical & Electrical Systems

Educational · MEP —integrated mechanical, electrical, and chilled-water systems with full cable management and distribution.

FEATURED PROJECTS

COMMERCIAL · MEP

Alswedi Project

Plumbing, water-supply, and rooftop mechanical systems.

INFRASTRUCTURE & UTILITIES

RTCC Project

Large-diameter pipeline installation and welded fittings.

OUR COMMITMENT

Our Commitment to Every Project

Every project is an opportunity to build lasting trust.

At Al Majd Al Taleed, we are committed to delivering projects with professionalism, accountability, and engineering excellence.

Our commitment extends beyond construction activities to creating long-term value through disciplined execution, technical expertise, quality-driven processes, and collaborative partnerships.

Every project represents an opportunity to strengthen relationships, deliver meaningful results, and contribute to the continued development of Saudi Arabia.

Our commitment is measured not only by the projects we complete, but by the trust we build with every client, every partner, and every project.

COMMITMENT PILLARS

01 **Quality**

02 **Reliability**

03 **Safety**

04 **Engineering Excellence**

05 **Professionalism**

06 **Long-Term Partnership**

07 **Operational Discipline**

08 **Continuous Improvement**
